**Reference Standard Specifications:**

Optical Material: Crystal Quartz  
 Diameter Tolerance: +0.0, -0.2mm  
 Phase Retardation:  $\lambda/8$ ,  $\lambda/4$ ,  $\lambda/2$  or upon request  
 Wavefront Distortion:  $\lambda/4$  at 632.8nm  
 Retardation Tolerance:  $<\lambda/500$ ,  $<\lambda/300$   
 Wavelength Range: 260-1800nm  
 Clear Aperture: >90%  
 Parallelism: <2 arc second  
 Surface Quality: 20-10 scratch and dig

**Note:**

- 1)Above price list is our reference price,it will be possible changed if you request for special requirement.
- 2)AR/AR coating will be available upon request.
- 3)For any question we didn't mention,please contact our sales teams.
